The City of Sydney
Sydney is the capital city of the State of New South Wales, Australia. The City of Sydney is Australia’s iconic face to the world – its international visitor flag-bearer. Over half of all international visitors come to Sydney and two-thirds of international business visitors. Given its location as the economic and cultural heart of the Sydney metropolitan area, the City of Sydney is highly and densely urbanised. Its land is intensively used for a variety of purposes including residential and commercial use as well as tourist and cultural attractions and parks and open space. The City of Sydney has a diverse ethnic mix with half of its residents born overseas. Almost 30% of the resident population speaks a language other than English. Apart from English, the most common languages spoken at home are Chinese, Indonesian, Greek and Russian. The City is home to one of Sydney’s largest communities of Aboriginal peoples.

Social Programs
Tourist programs will be available for persons accompanying the delegates.

The Conference
The Asia-Pacific Symposium on Applied Electromagnetics and Mechanics (APSAEM06), formerly known as the Japan-Australia-New Zealand Joint Seminar (JANZS), is devoted to topics on electromagnetic phenomena, both low and high frequencies, and applications in electrical, mechanical, and communication systems. The purpose of the symposium is to exchange scientific results and to promote the friendship between the countries in Asia-Pacific region. The symposium is one in a series of events sponsored by the Japanese Society of Applied Electromagnetics and Mechanics.

Topics
- Computational electromagnetics
- Inverse problems
- Characterization and modeling of electromagnetic materials
- Magnetic sensors and measurement
- Non destructive testing
- Applications of electromagnetic phenomena
- MEMS
- Electromagnetic and electromechanical devices and systems
- Applications in power, electronics, and control systems
- Electromagnetic environment and control
- Electromagnetic compatibility (EMC)
- Micro waves and antennas
- Terahertz applications
- Applications in telecommunication
- Electromagnetics and electromechanical education
- Miscellaneous

Contributions
Prospective authors are requested to submit a one-page (A4 size) digest, which is a short form of the final paper, for peer reviewing. It is expected to be a condensation or summary of the paper and includes the results and conclusions. A template for the digest will be available at the conference website http://www.eng.uts.edu.au/APSAEM06. All digests should be submitted electronically in pdf format by email attachment to APSAEM06@eng.uts.edu.au.

The full papers will be peer reviewed for publication in a normal issue of Journal of Japan Society of Applied Electromagnetics and Mechanics. To be eligible for journal publication, at least one author should register to present the paper. The format for the full papers will be available on the conference website.

The peer reviewing of both the digest and full paper will be organized by the Technical Program Committee.

Important Dates
- Submission of digest by email: 17/4/2006
- Notification of digest acceptance: 1/5/2006
- Early Bird Registration deadline: 23/6/2006
- Full paper submission: 20/7/2006 (Submit both soft and hard copies at the registration desk)
- Notification of full paper acceptance: 30/9/2006

Sponsors
Japanese Society of Applied Electromagnetics and Mechanics
University of Technology, Sydney, Australia
Kanazawa University, Japan

Honorary Chairmen
Prof. Archie Johnston, Dean of Faculty of Engineering and President of Australian Council of Engineering Deans, University of Technology, Sydney, Australia
Prof. Junji Tani, President of Japanese Society of Applied Electromagnetics and Mechanics (JSAEM), Japan

Chairman: Prof. J.G. Zhu, University of Technology, Sydney (UTS), Australia
Co-Chairman: Prof. S. Yamada, Kanazawa University, Japan

International Steering Committee
Chairman: Prof. S. Yamada, Kanazawa University, Japan
Co-Chairman: Prof. A. Nafalski, University of South Australia, Australia

Members
Prof. M.M. Bayoumi, Minia University, Egypt
Prof. S. Chonan, Akita Prefecture University, Japan
